

NEW CALCULATORS UNLOCKED

UNLOCK THE POWER OF TICORAGENT ONE WITH 4 NEW CALCULATORS!

Real Estate's #1 Net Sheet and Closing Cost App just got better.

SELL OR RENT

Helps agents present clear options to sellers whose homes have been sitting on the market. It gives sellers a full view of their choices, whether that's selling now or renting instead.

- Compare cash flow or cash out.
- Project financial results for the years ahead.

SELLER BUYDOWN

Equips agents with a creative way to offer seller concessions in a neutral or buyer's market. The side-by-side comparison shows the "out-the-door" impact of a price drop versus offering a buydown - often avoiding a reduction altogether.

- Compare a price reduction to a buydown instantly.
- Clever tactics to boost your seller's net at closing.

HOLDING COSTS

Puts a spotlight on the numbers often left out of pricing conversations. This visual tool shows sellers the real cost of overpricing, helping agents make their point with impact.

- Show the real effect of overpricing.
- TicorAgent's Holding Costs Calculator reveals the full picture with seeing totals for 3,6,9, and 12 months!

TRUE VALUE ANALYSIS

A first-of-its-kind calculator that simplifies the pricing conversation. It shows sellers why pricing right matters - supported by both local and national market data.

- Back your pricing strategy with hard numbers.

*Please be aware that there may be additional in-app purchases.
